

Texans For TxSIP

Sensible Immigration Policy

February 22, 2007

Honorable Senators and Representatives:

Thank you for your service to this great nation. It is a heavy burden you bear to consider, debate, and vote on the many pressing issues that confront us. Certainly, there are few issues more pressing these days than immigration.

Texans for Sensible Immigration Policy ("TxSIP") was formed to offer a voice of reason and prudence to the immigration debate. We are certainly interested parties. We own construction businesses that are dependent on immigrant workers. We have been proud to be a part of a bustling and thriving economy that has created hundreds of thousands of jobs and paychecks for immigrant workers and citizen workers alike. We complete I-9s, withhold taxes, and follow the law in good faith. We know our immigration system is broken. We need immigration reform that secures our border and keeps our economy strong.

Senator John Cornyn and Representative Sheila Jackson Lee have met with us over the past few months and listened. We are honored that they found TxSIP's message to be worthy of your consideration. This DVD was produced at our own expense to communicate our message to every one of you. Please watch it and consider its message.

Please do not hesitate to contact us for additional copies (it can also be viewed at www.txsip.com) or to share ideas and thoughts about how we can accomplish meaningful immigration reform.

May God continue to bless America and may He give you wisdom and patience.

Sincerely,

A handwritten signature in black ink that reads "Norman E. Adams" followed by a simple smiley face drawing. Below the signature, the name "Norman E. Adams" is printed.
